## Spring into Your Mastery

Everyone is unique and meant to share their genius minds with the world. Surrender to your passion and do what you love to do. Be an open vessel with your lives because whatever is shut down - shuts down possibilities. Use your imagination in an effective way. If you allow your thought process to run free, to go in whatever direction it's going to go in, you're going to end up inventing and/or discovering. You're going to get the unexpected in a much larger and profound way.

Visualize as if it's happening now ~ this is key. See it exactly the way you want it to go down. Not what you'd like, rather as if it's a done deal. Focus on what you intend and what you feel. So take a moment to pause... see the big picture and look at what's inside you. Know your role and do it with grace. Everyone is significant. Everyone has the capacity for grandness. It's up to you to do something with it. Use your imagination and let the inner self shine.

Anything that you've been putting off, do it now! It will move you into the next level, one step further. If you're feeling comfortable, get uncomfortable because that's when real change occurs. Reveal yourself, expose yourself and believe you can accomplish anything you put your mind to.

Love,

Melanie Gentzkow, MRET and Editor

## Philosophy of Rapid Eye Technology

The Rapid Eye Technology (RET) model is a scientific as well as a holistic, spiritual healing technology that works to release pain on many levels of human experience. Through positive affirmations, Skills for Living and body learning, we create new belief systems, which then take the place of trapped trauma that are released. RET encourages people to embrace the active awareness that they are self empowered, fully functional, loving and caring individuals who are connected to and exhibiting their highest potential. Trapped trauma residues, distorted belief patterns and unwanted emotions are the obstacles that prevent us from experiencing happiness, love and joy. You have the power within you to transform and create the life you want, once you are aware of it. Rapid Eye Technology is a tool that facilitates the lifting and clearing of old programming that keeps you blocked from this awareness, and helps you create new patterns supportive of the NEW YOU, you wish to create.

At the leading edge of personal growth today, Rapid Eye Technology (RET) is a revolutionary breakthrough in the treatment of emotional stress. RET is currently sweeping the nation as a faster, less painful way of reaching and releasing the following:

- Abuse of all kinds
- Addictions of all kinds
- Depression, Anger and Grief
- Family and Relationship Patterns

Basically any issue that causes stress can be released, the body retrained, and the mind educated to think and react differently through the RET process and Skills for Life. RET consists of essentially two parts:

1. Identify and release the stress causing factors on a physical, emotions, mental and spiritual level through the structured ocular movement and blinking of the eyes (the RET process).
2. Learn and apply new skills for life on a physical, emotional, mental and spiritual level to create what we would rather experience in life.

# Family Matrix Realignment

Families are wonderful things AND each of us has certain patterns from our families that don't work very well! As I've been doing large amounts of Family Matrix Realignments across the country, I've really come to realize how powerful they are!

I'll be teaching others how to do Family Matrix Realignments here at **The Institute on April 9 and 10th. 9 am to 6 pm. \$333.33**  
Join us, Family Matrix work really supports Rapid Eye Skills for Life.

♥Family Matrix♥

The purpose of a family matrix is to realign the hierarchy or the natural order of a family in this third dimensional universe. The matrix is used to call back the fundamental option that each one of us has to choose and to re-choose or recreate our own lives. It gives each person the chance to release attachments to long-standing patterns that have not been working but have been acted on as truth. It allows a new choice.

Hierarchies are energy alignments that take on forms like a genealogical chart. How we think and how we behave create matrixes or energy patterns. These patterns operate like energetic homing beacons to call people and events to them to further support their reality. Patterns become very deeply entrenched in families through the generations. Children come into a family to bring gifts to their parents. They do this by mirroring what's unresolved or what the parents need. The value of this family work then is to release these energy creations and open up a new space for interacting and the fundamental option for creation.

The family matrix realigns ethers and provides a mind/body learning. It also provides an opportunity for disengaging the physical and mental defense made long enough for the soul to accept the realignment.

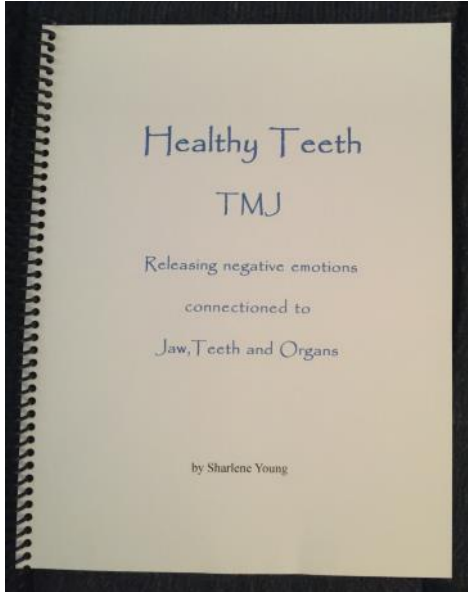

The way the matrix works is each person that is picked as a proxy is given the chance to use their "natural knowing" or intuition that comes from their own divine child—part of each of our souls. Intuition has receptor sights delineated in each cell. Cells are trained as we develop our knowing to function as detectives. They recognize and respond to all present feelings/reactions. They develop sensors to monitor the internal and external environment. All of the physical findings come together and are communicated on the soul level and decisions are made for what the next needed action is. This, coupled with spiritual awareness, can call forth what the next needed thing is.

The only way this evolution could continue was to create an opening for experiencing the self in different ways than before. The integration of these experiences creates the next level of consciousness (shift in the harmonics).

A dichotomy, any kind of dichotomy, creates a choice point, this way or that way. Choice is what creates or enhances consciousness. It's not what we choose, it's the act of choosing that creates increase. It didn't matter what a spirit chooses to experience. All experiences increase light, defining light as illumination. Think about it: we learn from everything we choose. The illusion of separation is necessary for forward movement, whole reconstruction of your own core being. Every life form has its own cycles of change and growth. You may access all of your resources at any time, and agree to cocoon and emerge into your own personal transformation.

The purpose of life is to learn. Every choice we make, no matter how small it may seem, has ramifications and increases our consciousness. Consciousness is what we are. The purpose of this life experience is the divine marriage between the physical and spiritual. It is an experiment that results in a new breed of consciousness. Forming an alliance between dimensions and shifting the harmonics to a new and different tonal range results in what we would call a resurrected being, with all the capabilities to feel and experience as only a physical body can, and with the spiritual capacity for eternal life and progression.

## New Manual for Healthy Teeth—TMJ

“I was getting ready to return to my dentist for the 4th time to adjust my mouth guard that I wear at night due to teeth grinding. Because of the way I grind my teeth, my mouth guard was hurting my upper front teeth no matter how many times it had been adjusted. I decided to cancel my dental appointment and see Melanie Gentzkow for RET and seek her assistance with grinding my teeth. After one session, I was able to wear my mouth guard without pain. I have been grinding my teeth since I was a little kid, and after one session it significantly decreased. Even my own dentist told me that there is no treatment she knows of that can help people stop grinding their teeth. Amazing results with RET! “

The spiritual journey is individual and highly personal. Keep listening to your own truth as you follow your path. Keep creating happy, loving, joyful memories and invoke more spiritual energy into your life to neutralize any built up energy. Mediations, Visualizations, Prayer, Affirmations, Personal Work with RET, Energy Work, and Yoga are all ways to do this.

We love you all and are so excited at the wonderful things you're doing in the field. Miracles are happening in peoples lives.

The gift of Rapid Eye continues to be a blessing to all that come in contact with it.

## **B.E.S.T.**      Bio Energetic Synchronization Technique

We have Dr. Roland Phillips, Master Trainer for BEST, coming to The Rapid Eye Institute **June 16-17, 2016** for FAMILY BEST. I love BEST because it's the closest modality to RET that I've ever experienced! I've had great results and I hope all our technicians will come experience Dr. Phillips & BEST.

This was sparked because as I've been traveling around the country and asking our Tech's and everyone I meet-- "Why are you not practicing your craft and creating your dreams?" The answer alarmed me! So many replied, "I am physically ill or I'm taking care of a ill family member."

WOW!!

Ok everyone--time to up the ante, let's get healthy so we have the strength to climb the hill and let our light shine!!!  
SERIOUSLY

I'm leading the way--down 65 pounds and working on a balanced blood sugar! Let's love ourselves ENOUGH to focus on health--physical, emotional and mental balance. See you in June 🖤

**Call/Text me 801-856-1631, Lynell Beckstrom**
